Here is a super pro studio that looks as good as it sounds. There's plenty of room for four talk-show guests in comfortable chairs around the outside parameter of the new Graham-Studios Designer Furniture. Each guest has a headphone plug in and separate volume controls in the rack make it easy for the host to make any adjustments. The rich open sound of the RODE ProCaster Microphones is enhanced with the DBX Microphone Processor. This unit both compresses and expands and makes a good voice sound GREAT! The Sparta-Matic on screen 12 deck cart machine allows one to load a break, up to 12 events...then save it as a "Deck Stack". You can reload saved "Deck Stacks" at anytime without having to re-enter each audio file. Start the first deck and it plays each file until reaching deck 12. The studio doubles as a production room with full editing facilities. It all comes as a pre-wired kit that virtually anyone can install.

## **ONLY \$26,980.00 - Pre-Wired Kit**
