ARRAKIS ARC-10 SERIES CONSOLE

ARC Series professional consoles...

On-air, Internet Radio & Production Rooms.

The ARC-10 is a general purpose console that meets the needs for most On Air Radio & Radio Production studio applications. Channels One & Two are high performance mic channels for on air talent with a guest. (Phantom power is optional) Channel ten is an advanced telephone interface to an external hybrid for Live callers or an Off-line contest call . Seven stereo line input channels easily handle the other audio sources, such as CD players, found in most studios. Channel nine can even be optional y configured with a Windows PC USB interface to be used with Live On Air, Automation, & Production software.

With 5 million operations on pots, LED lighted, switches; and electronic switching of all audio signal paths; the ARC-10 is a rugged, reliable, and versatile console for professional radio studio applications.

The ARC10U and 10UP are as easy to connect as your home stereo. The ARC10 is a balanced version of the board. It features easy to wire RJ45 style connections and they come with Cat 5 cables ready to connect. Microphone inputs are XLR.

ARC 10U	Unbalanced RCA Connections	\$1595.00
ARC 10UP	Same with USB Channel & Live Assist Software	\$1995.00
ARC 10BP	Same as 10UP except with balanced inputs	\$2495.00
