The **Arrakis 1200 Console Series** is the culmination of more than 20 years designing and building radio consoles. They are easy to install and easy to work on with the entire front panel folding open for easy internal access. With your choice of three models to choose from, one will be just right for your application. The 1200 series uses Penny & Giles faders for years of smooth, trouble free operation. Traditional broadcast mixing consoles have always included Analog VU Meters...the 1200 series does not disappoint. Thoughtful design and dependable parts makes a 1200 series console an excellent choice for your studio.
