ARRAKIS NOVA CONSOLE

Analog & Digital...

- As easy to install as a home stereo system
- Front panel opens with four screws
- Digital on the inside, connects to analog or digital
- 10 Channels with two Microphone or Stereo Line channels
- Reliable DC Control Extends Fader & Switch Life
- Built Rugged with Beautiful Oak Trim
- Program and Recording Buses
- Talkback for inter studio communication

The **Arrakis NOVA Console** is optimized to work with consumer level equipment. The connections are easy to connect XLR for Microphones and consumer style RCA for stereo equipment. The NOVA uses Penny & Giles faders for years of smooth, trouble free operation. Traditional broadcast mixing consoles have always included Analog VU Meters...the NOVA does not disappoint.
