

Custom Designer Series Studio

Can Be Wired 220VAC For World Markets
Specify When Ordering

Here is a super pro studio that looks as good as it sounds. There's plenty of room for four talk-show guests to sit around the outside parameter of the new Graham-Studios Designer Furniture. Each guest has a headphone plug in and separate volume controls in the rack make it easy for the host to make any adjustments. The rich open sound of the RODE ProCaster Microphones is enhanced with the Symetrix Microphone Processor. This unit both compresses and expands and makes a good voice sound GREAT! The studio doubles as a production room with full editing facilities. It all comes as a pre-wired kit that virtually anyone can install. The new JK Audio Six Line

"Concierge" Talk Show System is the best of the best and it is expandable to 12 lines. Finally we include the BD 960 Audio Delay to prevent accidental bad words from being broadcast.

THE SUPER TALK STUDIO COMES WITH THESE ITEMS
